

### **Corona conditions - "Federal emergency brake" - 26.04.2021**

Due to the federal emergency brake and the new paragraph in the Infection Protection Act §28b, a stricter uniform regulation is coming our way, which is linked to incidences. Accordingly, the Rectorate would like to announce the following measures for university operations, including projects and diplomas:

**The following measures apply from now until probably 30<sup>th</sup> of June 2021:**

	<b>Incidence 100 – 165 (on three consecutive days)</b>	<b>Incidence &gt; 165 (on three consecutive days)</b>
<b>1. implementation projects/diplomas</b>		
Location restriction	- Cologne and surrounding area (100km) and NRW	- Cologne
Team size	- up to 5 persons with hygiene concept	- limited to individual work - Lending of equipment (mail will follow)
<b>2. seminars</b>	- in exceptions, face-to-face teaching possible	- <b>No more</b> face-to-face teaching - <b>Everything online only</b>
<b>3. diploma exams</b>	- <b>presence examination is allowed</b> - up to 5 persons with hygiene concept	- <b>Presence examination is allowed</b> - set up individually - low-contact examination - dismantle individually
<b>4. access to special rooms (laboratories, workplaces KHM)</b>	- Work at individual workstations possible. - Booking via room supervisor - Access via the gate	- Work at individual workstations <b>no longer possible</b> - Gate closed

**All projects and diplomas that cannot be organised in this way would have to be adjusted or postponed. For project plans after June 30, 2021 preparations should only be made if they can be withdrawn again.** The basis for this scheduling is the above-mentioned Infection Protection Act and the incidences. **As soon as the conditions (incidences) improve, we will of course immediately adjust the rules again.**

Kind regards

Rectorate of the KHM
